

EFFECTIVE FROM THE INSIDE OUT

Many people cannot absorb Vitamin C because of its naturally acidic properties. We encase the LifePharm IMMUNE+++ formula with an enteric coating to help it withstand acidic conditions in the stomach. This protects the supplement from dissolving in the stomach, allowing it to reach the small intestine for proper absorption*.

WORKING TOGETHER

The LifePharm health mission started with Laminine, a proprietary, original formula that has remarkable effects on those who take it. This is why we continue to build on the foundation set by Laminine by expanding our product line with supplements that work hand in hand toward the goal of achieving healthy living*.

YOUR IMMUNE SYSTEM

The immune system is our body's natural defense to all the dangerous viruses and bacteria that are everywhere in the environment, both indoors and outside. Our immune system is a network of white blood cells that can recognize, attack and destroy foreign substances before they can cause serious damage to the body.

Now more than ever, we have to take care of our immune system and fortify the body against the onslaught of illness.

In today's environment, our bodies are surrounded by the **37 million bacteria** each person adds to the air every single hour.
